

Accept Maestro payments via your webshop!

- **New Online Payment Method**
- **More Payment Convenience for your Customers**
- **Guaranteed Payments**
- **Easy to Accept!**

EMS card and MasterCard Europe are partnering to enable E-commerce merchants to accept Belgium Maestro® cards. Following the United Kingdom, Spain and Austria, now also **Belgium cardholders are able to purchase goods and services online with their Maestro card**. In the upcoming weeks, over 740,000 home-banking customers of the KBC, CBC and Centea bank will be informed about the **new payment method**. Later this year, other Belgium banks will follow and enrol their cards for online Maestro usage.

Maestro Payments = 100% secure

Maestro® payments via E-commerce always require the use of **MasterCard® SecureCode™ technology**: online shoppers always need to authenticate themselves successfully with a personal PIN code or a password. Fraud will be prevented and **payments are guaranteed**.

Maestro is cost effective

Due to lower processing costs in comparison to creditcard payments and to promote the acceptance of Maestro online, EMS card is able to offer you a **very interesting Maestro commission rate**.

Accepting Maestro is easy!

EMS card and our partners Ogone and docdata payments have ensured that you are able to process Maestro transactions. In order for you to accept Maestro, you **only need to activate this payment method in your payment module**. Contact your Payment Service Provider, activate and start accepting Maestro payments! The Maestro logos and banners for your website and payment page can be found on EMS card's website under the section E-commerce & Mail Order/downloads. Please ensure that the Maestro Logo is clearly stated on your website.

In case you would like more information on the acceptance of Maestro Online, please contact EMS card E-commerce by phone via **+31 20 66 00 168** or via salesupport@emscard.com.
